Fall Foliage Driving Tours

Dense woodlands surround much of this beautiful region, making it home to some of Pennsylvania's most beautiful old-growth forests. Try any of these routes, or portions thereof, for a glorious autumn afternoon drive or bicycle ride. Our peaceful country roads, mountains, valleys, and pastoral fields are sure to inspire you.

Route 45 (Purple Heart Hwy) / Route 192 Loop

From Lewisburg, follow Market Street, which turns into Route 45 West. Route 45 West is called the Purple Heart Highway and is 100 miles of historic, scenic beauty that ends in the State College area. If you don't want to take Route 45 for the entire 100 miles, take a right on any of the major paved roads off of Route 45 and you'll intersect with Route 192 (45 and 192 run parallel to one another). Take 192 East back to Lewisburg. Along the way, you'll see rural pastures, farm fields, barns, Amish horse-and-buggies and ample fall foliage.

Route 104

From Lewisburg, follow Market Street, which turns into Route 45 West. Travel on Route 45 West for 9 miles into Mifflinburg. Go through the town of Mifflinburg and turn left onto Route 104. Here you'll view fall foliage with the backdrop of mountain ranges and deep valleys.

Route 304

From Lewisburg, travel south on Route 15 towards Winfield, about 5 miles. Turn right onto Route 304 West and follow for approximately 8 miles into New Berlin. Along the way, you'll experience quaint downtowns and rural landscapes alike.
